

How many species of duck find their home here in the Wetlands Enclosure?

What is a male duck called?

Which species of duck is in the photograph above?

Go to the Lawn Aviary and look for the Purple Glossy Starlings. Where do they come from?

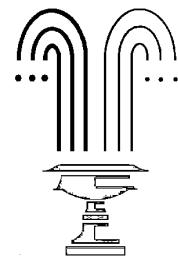

What do the Azure Winged Magpies eat?

How many eggs will they lay in a clutch?

Look out for the peacocks that live in the Gardens. If you see one, draw a picture of it here!

## ANIMAL TRAIL

Look out for the many animals that live here at the **Birmingham Botanical Gardens**. Some of them live in specially made habitats but also look for wild ones too. Use the information boards to help you with your answers and make a list of all the animals, birds, fish and minibeasts that you see on the back of your sheet.

Say 'hello' to the parrots and other birds found in the **Lawn Aviary**! Find their names in this word search!

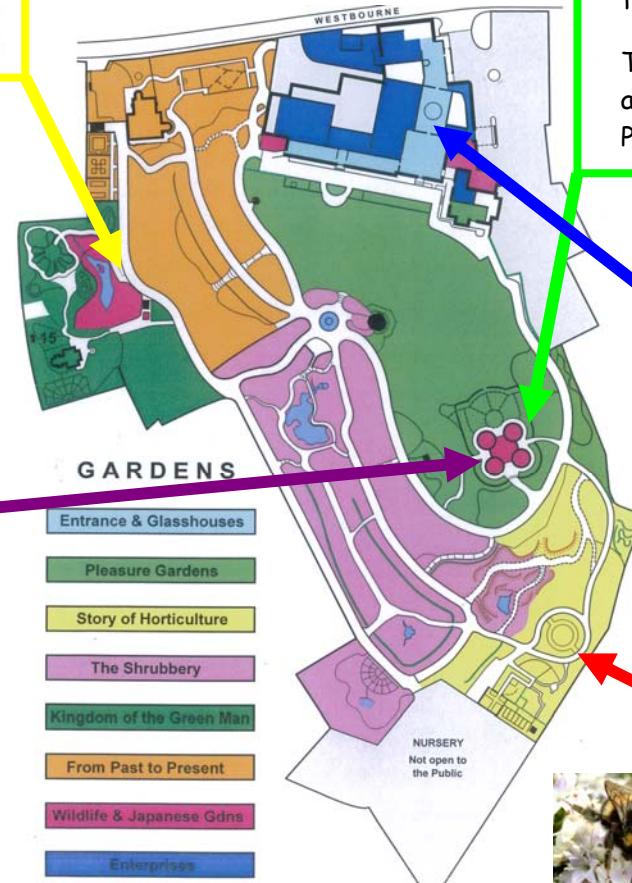

You might be able to get the birds talking!

The white Cockatoo (Harley) in this photo likes to say 'Hello'!

The two Green-Winged Parrots (Sam and Polly) in Harley's cage like to whistle and say 'Hello'!

The big Macaws in the next cage along, Lional (blue and yellow) and Papuga (red) screech a lot!

Can you find our fish in the Tropical Glasshouse? How many can you count?

I have wings but I'm not a bird,  
I am small and colourful,  
I live in gardens, fields,  
and forests,  
I used to be a caterpillar.  
I am a...

Can you find my hibernation box in the Grass Garden?  
Write down two things you can do at home to help them.

Peacocks are known for their beautiful tails. The peacocks use them to show off to the peahens.  
Did you know that a group of peacocks is called a 'party' of peacocks?  
A peacock can live for up to 20 years!
